Warmth and maximum comfort in our magnificent property with modern lines incorporated with nature, in this spot full of peace in Buena Vista urbanization in Calpe. br>br>Located on a wonderful corner plot of 1000 m2, the volumes of the house embed with each other, moving around to create different semi-covered and uncovered areas, generating a stairway towards the pool and the vegetation that surrounds it. Looking for a continuous link with the outside and taking advantage of its South orientation. And with natural stone as a distinguishing material for sizing, which brings us even closer to that Mediterranean architecture that we are so passionate about. br>br>Distributed
